Re: Water Soluble Organic Chemicals in the Runyon Water Shed

Dear Mr. Langenohl:

The following report is the conclusion of the work initiated in the field laboratory coordination memorandum of June 25, 1992. I have written the report as a typical experiment using the following outline:

- Executive Summary
- Introduction/Objective
- Experimental
- Results
- Conclusions
- Recommended Future Work
- Appendices

If you have any comments or suggestions concerning the clarity of this report, please call me.

Best regards,

James S. Smith, Ph.D.
President/Chemist

JSS/eh
